

Since 1994, ProTech Enterprises has been focused on providing the most efficient and effective solutions to our customer's needs. We have served many companies, primarily located in the Ohio area. Due to our many successful programs, it only makes sense to offer our innovative product solutions to a wider audience. Success in this area requires more of a global marketing focus, which drove us to initiate a major website development effort. We elected to introduce this website as soon as possible, enabling our existing and future customers the ability to explore our products and their applicability to meet specific industry needs. We appreciate your interest and appeal for your patience as we continue to update our website. Your interest is our concern and we are anxious to introduce our products to you!

Please visit www.ee-protech.com often and contact us if you have any questions or need additional information.

Please explore our website for a solution to your application needs!
